Kære Venka! *dit*

Tak for ~~Deres~~ *dit* kærlige Brev af 24/10 - 1955. Samtidig vil jeg ogsaa her gerne udtrykke min inderligste Tak, fordi *du* kom og besøgte mig her i Danmark og ligeledes en hjertelig Tak for de dejlige Dage *du* gav mig i ~~Deres~~ *dit* smukke Hjem i Bangalore for et Aar-siden. Det var dejlige Minder for hele Livet.

Dit Besøg her hos os blev et meget stort Lyspunkt. Dit Til-sagn om din Støtte til at faa mit Arbejde frem i Indien er os til stor Glæde og Inspiration.

Med Hensyntil Gerner Larsson, kan jeg kun sige, at han er den helt rigtige Person til at bringe mine kosmiske Analyser ud til fremmede Mennesker. Han har været hos mig i 26 Aar. Har i den Tid holdt Hundreder af Foredrag over mine Analyser og Symboler. Tillige har han været Primus Motoren i selve Administrationen af min Sag med dens mange Afdelinger. Denne hans Post ved siden af mig har han udført saa samvittighedsfuldt, energisk og fuldkommen, at jeg endnu ikke har set nogen anden ung Mand indenfor, der vilde have været bedrøjet egnet til at være min nærmeste Medarbejder. Derfor nærer jeg stor Tillid og Tryghed i Tanken om hans Overtagelse af det nye Hverv i min Sags Tjeneste, som Forsynet her vil lægge paa hans Skuldre. Jeg tror, at Inderne vil blive meget glade for ham.

Her var en mindre indisk Udstilling hos et Firma i København. Ved denne Lejlighed udtalte den indiske Minister for Skandinavien, som var til Stede ~~her~~ og aabnede Udstillingen, at man vilde komme igen til næste Aar med en meget stor Udstilling. Mon denne hans Udtalelse har noget med den Udstilling, *du* som *du*, kære Venka, tænkte paa at bringe hertil? -

I alle Fald vil det glæde os meget at se ~~den~~ *du* igen her til næste Aar og andre Venner fra Indien, der eventuelt kan komme med.

Ja, kære Venka her har vi Sne og Kulde. Rimtaagen ligger tæt omkring Husene og dækker for al Udsigt. Ved saadan en Lejlighed gaar mine Tanker over til ~~dit~~ *dit* skønne Land med Palmerne, Varmen og Blomsterne, Aberne og de mange farvede Fugle.

Men det opliver os noget, at vi nu skal til at holde den dejlige Jul. Det er en skøn Lysets Fest for os her i Mørkets og Vinterens Lande. Fra Kontoret vil du faa sendt vort Jule-Kosmos. Det er ganske vist paa Dansk, men du kan da glæde dig lidt over Billederne.

Og hermed vil jeg ønske dig en rigtig glædelig Jul og de allerbedste Ønsker for dig i det nye Aar.

Med de kærligste Hilsener.

Martinus

* *Sagen*

at gøre,

The 16th of December 1955

Dear Venka,

Thank you very much for your dear letter of the 24th of October this year. At the same time I beg to express my most heartfelt gratitude because you came to visit me here in this country - and for the lovely days you let me spend with you at your beautiful home in Bangalore one year ago. These days are a memory for life.

Your visit here by us was a very bright experience, and your promise to help advancing my mission in India is a source of inspiration and great happiness to us.

With regard to Gerner Larsson I can merely say that he is the absolute best man to bring forth my cosmic analyses to other people. He has been with me for 26 years. During that time he has delivered hundreds of lectures on my analyses and symbols. Further he has been the prime mover with regard to the administration of my mission with all its various branches. This work of his next to me he has always done so scrupulously, energetically and perfectly that I until now have not met any other young man connected with my mission who would have been more adapted to be my nearest collaborator. Therefore I am very confident and reassured by the thought of his taking over of this new work in the service of my mission which providence hereby has placed on his shoulders. I am sure that the Indians will find him most sympathetic.

At a firm here in Copenhagen a smaller Indian exhibition has taken place. By this occasion the Indian ambassador for Scandinavia who was present and opened the exhibition declared that next year a very great exhibition would take place here. I wonder whether this statement has any relation to the exhibition which you, dear Venka, has planned to arrange here?

Anyhow, we shall be very glad to see you again next year here by us together with those other friends from India who eventually might be able to go with you.

Well, dear Venka, here we have snow and cold weather. White-frost fog lies dense around the houses and conceal all views. By such an occasion my thoughts flies to your beautiful country with its palms, warmth and lovely flowers, with the monkeys and the many gay-coloured birds.

But we are somewhat brightened up because we now are going to celebrate the beautiful Christmas. To us who live in the countries of darkness and winter this time is a lovely festival of light. From the office you will receive our Christmas-Kosmos. It is printed in Danish, but I hope you will be glad to see the pictures.

With this I wish you a really happy Christmas and send you my very best wishes for the year to come.

With the kindest regards
