

Anna  
18.12.55.

Very dear and wonderful 'Martinus',  
This is to bring to you and all the  
dear people who are fortunate to be  
near you kind greetings for Christmas  
and a happy New Year.

It is now only just over a year  
ago since you were here making us  
so happy in your Nilgiris - for since  
the ray of power from your centre  
has touched here, the Nilgiris are  
also part of your power station,  
is it not so? Anna and I are  
remembering how we fun. you.  
Anna, have and I celebrated  
Christmas eve in Anna, a  
week before the event! For  
you made the Christmas cheer  
live at that moment in a  
happy joy of being. I can never

2  
forget that time.

I am at present reading Anna's  
translation of "The Christmas  
message". It will be an inspiration  
to so many more when it is also  
given to the world in English. The  
priests in the churches go on speaking  
platitudes and do not give a new  
life to the old truth. The pity is  
they give it an individual meaning  
of one great man, not the cosmic  
sense as you do. No one ever said  
before the manger is the earthly  
beginning of being's body. Yet taken so how  
it all begins to stand clear in an  
inner sense.

You must be flooded with letters this  
season. This is just for me to make  
the link for Marie and me to your  
Sun power. Marie is still away in  
United States. She is being well looked  
after by a well to do American lady.  
and one says they say she keeps

a serenity that they need to know.  
 I do not know when she returns.  
 She has not written for three months.  
 I sometimes wonder will she return?  
 And I feel too that 'Aruna' our  
 place may not last long. I  
 am facing something "in the  
 Threshold" and do feel a little  
 frightened. Then I remember how  
 you who can see so much of  
 this word still can laugh,  
 and I try to say all must be  
 well.

We had too much rain, but  
 now it is the clear beautiful  
 sunshine as it was when you  
 were here. We hope that you  
 will come bringing the sunshine  
 again with you. Meanwhile we  
 look forward to Mr. Larsen  
 coming. I thank you for your  
 sweet invitation to come with Aruna  
 and Venka. I do not know where I  
 shall be then. With love  
 Lulu Wieding.
